

## TWO HUGE DRY DOCKS TO BE BUILT ON ISLAND DOCK

One for U. S. Shipping Board with Lifting Capacity of 12,000 Tons---Other Somewhat Smaller---Work on Contract Now Under Way---Complete in 1920.

The Kingston Shipbuilding Corporation is to build a drydock with a lifting capacity of 12,000 tons for the United States Shipping Board, while the Schoonmaker & Connors

yard on the upper end of the Island. Dock has a contract to build a dry dock with a lifting capacity of 7,000 tons for New York parties. Both are big contracts and mean that Kingston has again been placed on the map in the shipbuilding industry, without question the biggest and most important industry in the city and employing the largest number of men.

**To Be Built In Sections.**  
 "The contract from the United States Shipping Board to build a dry dock with a lifting capacity of 12,000 tons has been signed and delivered," said John D. Schoonmaker, president of the Kingsport Shipbuilding Corporation, who was seen at his office this morning.

He stated that the dock will be six sections called pontoons. Each section or pontoon will be 80 feet long and 117 feet wide, and when the six sections are put together the dry dock will be 480 feet long and 117 feet wide. The height from the bottom of the dock to the top of the pontoons will be 10 feet.

**Could Lift Three Ships.**

An idea of the bigness of the dry dock when completed may be realized when it is known that it is large enough to lift at one time a three of the big ships that have been built by the Kingston Shipbuilding Corporation, for the Empire

**2,500,000 Feet Of Timber.**  
Into the construction of this dock will go 3,500,000 feet of yellow pine and oak timber. Much of this timber will be creosoted to withstand salt water.

**Work Started This Morning.**

Work on the big dock started this morning when the corner logs for the first pontoon were laid down. The blocks which have been assembled since last night will be put in place for some time.

**About 200 Men Employed.**

When asked if the starting of the construction work would mean an increase in the working force, Mr. ...

Schoonmaker replied that it would not be very materially increase the number of men employed at the present time. There are now about 290 men employed on the Island Dock yard.

**Completed In 1920.**

It is expected that the work construction will take at least a year, the big dock being completed early next summer.

The Kingston Shipbuilding Corporation originally had a contract to build a 20,000 ton dock. It was finally decided by the shipping board that such a dock was too large for the vessels of the shipping board, and the smaller dock of 10,000 tons was finally decided upon.

Third Ship Launched Soon.

**No Work on Fourth Ship.** The fourth ship, which has been in the frame since the early part of the year, will not be completed. The Klazerton Shipbuilding Corporation has received positive orders from the shipping board to cease work on

**A 7,000 Ton Dry Dock.**  
Mr. Schoonmaker, when asked regarding an announcement that yard of Schoonmaker & Company would also build a dry dock, stated that the yard had secured a contract for the building of a dock from the city of New York and would commence work in the very near future.

## THE WAY TO STIMULATE.

United States army supplies now in France are valued at one and a half billion dollars. The French government having offered only \$300,000,000 for the whole equipment, including all materials, it is proposed among those in charge to take the stuff out of France and sell it elsewhere, members of the committee favoring the return of all possible supplies to this country with a view to "break the high prices." The War Department's huge stock in France consists of ship docks, railroad works and equipment, automobile trucks, textiles, and surplus army food including 350,000,000 worth of meat and 3,000,000,000 worth of canned vegetables. If the textiles and all that food were brought home and sold, it would not be unreasonable to expect at least some slight advance in the process of "breaking the high prices."

Yet the situation at home is such that many are wondering if there is anything powerful enough to entangle or cut the Gordian knot of high living costs. For example, there is abundance of beef on the hoof and in the packing houses—a heavy oversupply, in fact—yet prices continue to soar. The public's only protection is not to eat meat. The public learned how to subsist on little meat during the war when it was necessary to save for our soldiers and the hungry peoples of Europe, and now, when this is no longer necessary, and when the only need is the individual need of saving the money which the high prices of meat would swallow up, the public continues to refrain from eating meat. The cattle raisers, the packers and even the Department of Agriculture are trying to convince the American people that, with so large a supply of beef in the country and the war's abnormal demand at an end, beef ought to be eaten plentifully; they talk and write and publish with the benevolent aim of stimulating the consumption of beef. But inasmuch as the only way to stimulate the consumption of beef is to bring down the excessive price and this very thing is non-existent, the public continues to decline to eat beef to any extent at such heavy cost. Having learned how to go without, the public remains disposed to await the time when the producers reluctantly conclude that after all there may be more money in larger sales at smaller profits than in small sales at war prices.

The coming of that better time might be hastened if the War Department should bring back from France fifty millions worth of meat and put it on the market at forced-rate prices, but who can tell? These are strange times. Intoxicated by the excessive prices they received during the war, the producers really seem to be willing to lose money rather than return to the old, time-tested policy of larger sales and smaller profits.

Merry shafts have been winged at the expense of Ohio's inconsistency in permitting a prize fight and forbidding motion pictures of the same. Yet obviously there is a difference in moral effect in consequence of the fact that the young person has the price and the liberty of a movie but is more likely to fall of both in the case of a prize fight. Even seasoned adults, after consulting their pocket-books, will flock in millions to the movies while gathering only in hundreds to see skilled "bruisers" pound each other.

The most adventurous of all stunts was the man who sneaked aboard the R-34 and managed to conceal himself successfully. Apparently he was just about scared to death, for it is mentioned that he took a fever and his temperature ran up to the incredible height of 129 degrees. He is likely to choose an Atlantic liner next time even at the cost of fever thrills.

aloner thinks of doing, including the building of the Rondout bridge.

The New York water department has announced that on July 1, New York city used, internally and externally, 23,000,000 more gallons of water than on June 30. Whatever may be the proper interpretation of these figures, it is obvious that New York's first dry day was a pretty wet one.

## PORT EXEN.

Port Exen, July 14.—A meeting of the Woman's Foreign Missionary Society of the Reformed Church, will be held Tuesday afternoon at 3 o'clock at the home of Mrs. Etta Lowe on Schryver street. At this time the six months' offering will be taken.

Everyone interested in Division No. 2 of the Ladies' Aid Society of the Methodist Church will keep in mind the lawn party to be held on the parsonage lawn Tuesday, July 22. Home made ice cream and cake on sale.

## ANNUAL S. S. OUTING.

Free Methodist Members Had Good Time at Leggs Mills.

The annual outing of the Free Methodist Sunday school was held at Leggs Mills, Saturday afternoon, July 12. About forty were present. Arriving at the picnic grounds at about 2 o'clock, the tables and benches were soon filled high with wraps and goodies; when every one started in for a good time, some for the swing, some were rowing, while still others were enjoying a dip in the waves. And too, there were others, noted anglers, who had whipped the waters of many a lake and stream, who were displaying their skill in enticing the wary bass from his hiding place. About 6 o'clock, after everyone had gathered at the "Dining Department," tables were grouped together and loaded with such a variety of good things to eat, that even those with the most fastidious tastes were sure to find something to their liking. It seemed that the ladies had vied with each other, as to who could make the best cakes, salads, sandwiches, etc. These together with lots of ice cream, brought a smile to the face of every one, which spoke louder than words, that all had a good time. Much thanks is to be given to the president of the S. S. S. and the committee who so tastefully arranged everything, also to Messrs. J. Clayton, B. Churchman and F. Myer, who each made several trips with their autos, to get the party to and from the picnic grounds.

## POPULAR SONGS

As Sung at Point By Dolan Pleased Big Crowd.

Before one of the largest throngs of people ever gathered at Kingston Point Park on a Sunday evening, "Tommy" Dolan, Kingston's famous and popular tenor, sang his way into each and everyone's heart that heard him render the season's most popular songs from the band stand accompanied by the Municipal Band, under the leadership of Prof. C. Muller. The clear voice of this young singer was heard plainly all over the park and to those who were out sailing on the moonlit waters his tenor voice carried to them as in a charm and made the sail very entrancing, especially his beautiful rendition of "The Heart of a Fool," he being obliged to respond to several encores. "I'm Forever Blowing Bubbles" was also well received.

The Board of Public Works, especially Mayor Canfield, should be congratulated for their wisdom in selecting Mr. Dolan. It is the hope of the Point-goers that he will be retained to sing there regularly.

## GLEN BURNIE FETE TUESDAY NIGHT

Tomorrow night the grand lawn fete for the benefit of Temple Emanuel will be held at Glen Burnie farm, 225 Hurley avenue, and the fair promises to be one of great interest and much pleasure. In addition to the beauty of the Glen Burnie farm, which will be handsomely decorated, there will be a remarkably beautiful musical program, including some beautiful aesthetic dancing. Free autos will run from the corner of North Front street and Washington avenue, where the Colonial car makes the turn, to take those attending the lawn fete to the grounds. The tickets costing 50 cents entitle the holders to the short auto ride to and from the grounds; to the entertainment and to a dish of ice cream and home made cake. The ladies of Temple Emanuel are planning for a very large attendance. Should the night prove stormy, the lawn fete will be held the first clear evening.

## CHAPLAIN SNYDER HERE SUNDAY

Chaplain Howard E. Snyder of one of the U. S. transports, came to Kingston unannounced Saturday evening, and was the guest of Rev. F. S. Bringer, pastor of Lutheran Church of the Redeemer. Chaplain Snyder preached on Sunday morning in the church, and gave an eloquent address on his experiences while in the service. Chaplain Snyder is well and favorably remembered in Kingston and was pastor of the Lutheran Church of the Redeemer while here, being succeeded by Mr. Bringer. Chaplain Snyder while pastor here was also chaplain of the Tenth Regiment of which Company M was a unit. He is still in service and left this morning for New York city from which he will sail for Brest, France, Tuesday morning.

Lieut. Is Constabulary Captain.

Lieut. Frank Tobey of this city, who for seven months has directed operations of the State Constabulary troops in the suburbs of New York city, was promoted to captain and left for Albany Sunday to become Captain of Troop G there. Lieut. Tobey had many interesting adventures while enforcing the law in Westchester, Putnam, Rockland, Orange, Dutchess, Sullivan, Suffolk and Nassau counties, where Troop G patrolled. Among other things he investigated the thefts at summer homes of William Rockefeller, H. H. Greeland, Samuel Sloan and other prominent summer residents of the suburbs. His successor has not been named.

A Nincompoop.

"Nincompoop" is a most entirely satisfactory and refined way of calling a person a fool or blockhead or a simpleton. It is a corruption of the Latin phrase "nimis compositus" - not sound of mind. Besides being satisfactory and refined it has a classical origin in addition.

## The KITCHEN CABINET

Failure is, in a sense, the highway to success, inasmuch as every discovery of the false leads us to seek earnestly after what is true, and every false experience points out some form of error which we shall afterward carefully avoid.—John Keats.

### GOOD DISHES TO TRY.

Fill cream puffs made the size of a walnut with seasoned cream cheese and serve with the salad. Add whipped cream and any desired seasoning to the cheese.

**Prune Pie.**—Put through a sieve one cupful of stewed prunes, add a cupful of rich milk, one teaspoonful of cornstarch and the yolks of two eggs, a third of a cupful of sugar and a bit of salt. Pour into a pastry shell and bake. Cover with a meringue using the egg whites, or they may be stirred into the mixture just before baking.

**Filled Rolls.**—Cut a slice from the top of the rolls, scoop out the centers and brush with butter, then brown in the oven. Fill with any creamed fish, chicken or vegetable. Sprinkle with parsley and serve.

A most delicious dessert may be made when baking pastry. Reserve a baked shell, which if kept in a dry, cool place will be crisp and good several days later. Fill the shell with sliced strawberries mixed with sugar and heap over the top sweetened whipped cream. Garnish with quartered berries and serve very cold.

**Strawberry Souffle.**—Cover timbal molds with a rich biscuit dough and bake. All white warm with strawberries crushed with sugar, top with the white of egg and brown quickly, or they may be served with whipped cream or a spoonful of ice cream as a garnish.

**Marmalade Tart.**—Fill a pastry-lined plate with any desired marmalade—apple or plum are both good. Cover the top with slices of apple cut in a core and peeled apple.

Sprinkle with lemon juice and sugar and bake half an hour. Serve with a spoonful of whipped cream or cream cheese in each ring of the apple.

**Vienna Steak.**—Take half a pound each of veal and lean beef; chopged, season well with salt, pepper and onion juice, with a few drops of lemon juice and a sprig of parsley. Cook over a fire in the broiler under a cover from ten to ten minutes. Serve with creamed butter and parsley spread over each steak. A very hot frying pan may be used for broiling if it is not too thickly greased.

### Atlanta Rivals Reno in Its Divorce Mill

Atlanta, Ga.—Because of the great number of divorce suits undenied in the Atlanta courts Judge John T. Pendleton, who a few weeks ago declared that Atlanta is out-Renoing Reno in divorce records, has recommended the appointment by the county of a "divorce defender" to investigate thoroughly all divorce pleas and actively represent the defense in all undenied divorce cases.

"If husbands and wives knew that both sides to these family troubles would be aired in court and that the faults of both sides would be exhibited before the jury, there would be a lot of people more willing and eager to settle their differences peacefully instead of rushing into divorce courts," declared Judge Pendleton.

### FORTUNE LOST IN STRIKES

Labor Disasters in Ruhr Coal District of Germany Prove Financial Disaster.

Berlin.—The strike recently conducted in the Ruhr coal district has cost the miners \$8,000,000 it is estimated.

output deficit for April is 3,320,000 tons, representing more than \$34,000,000. The loss to physical property is believed to be so great as to preclude profitable operation for a long time to come.

The miners in the Ruhr coal fields are more than \$25,000,000 out on their wages account as the strikes have been going on intermittently since the beginning of the revolution. In the Hamborn district miners struck 63 days out of 140 working days between November 9 and April 23.

The loss to the nation as a result of the coal strikes cannot be computed. It caused a general paralysis of railway traffic, the shutting down of industrial plants and a loss of revenue and freight to the state railways. The national strike force is believed to have caused a depreciation in the national currency of more than \$4,000,000,000, and to have added to the value of the German mark abroad.

### GOING TO EXPLORE ANTARCTIC

Veteran British Traveler Will Spend Six Years in South Pole Region.

London.—John L. Cope, veteran antarctic explorer, is organizing an expedition to pass six years in the south pole region. The exploring party is to be known as the "British Imperial antarctic expedition." It will leave England in the famous ship Terra Nova in June, 1920, and will not return until 1926.

An airplane is to be taken on the expedition and a flight in it to the south pole is contemplated. The plane will also be used to facilitate the surveying of the antarctic region.

Mr. Cope will also take with him the latest wireless telegraphic devices to enable him to keep in constant touch with the rest of the world while he is making his explorations.

The main object of the expedition is to ascertain the position and extent of the mineralogical and other deposits of economic value known to exist in Antarctica, and arrange for their practical development as a further source of imperial wealth.

### TRAIN APES AS FARM HANDS

Doctor Garner Plans Establishing Colony of Chimpanzees in United States.

New York.—Dr. Richard Lynoch Garner announced his intention of establishing a colony of chimpanzees and gorillas in the United States to uplift the entire ape race. He has just returned after two and one-half years spent in the French Congo for the Smithsonian Institution.

The professor said he believes apes, if given the advantage of modern education and environment, would develop into a race that would sow and reap and tell in the mill. In recent working days apes the professor saw a possible solution of the servant problem.

"Sam, a boy ape that shared my home in Africa, learned to fetch things I called for," he said. "He became as particular as I about bed sheets being smoothed out, and couldn't go to sleep without a pillow. If man could train a dog to herd sheep, man can make a farm hand out of an ape."

### LATINS BUILD BETTER HOMES

Influence of Italians Who Have Lived in United States Aids Movement.

Rome.—The Italian who has lived long in America is helping to Americanize Italy more potently than any other factor. He has introduced American ideas and American ways of doing things at every possible turn when it is practical and more efficient than the Italian.

The Hilo-American has brought back from America an idea of better housing conditions, and if he decides to settle again in Italy he builds a home patterned along American lines with plenty of space around it, and with its division of rooms.

### Why Overwork Is Wrong

St. Edward Carson, speaking at a meeting at Belfast recently, said for a great part of his professional career he used to get up at half-past four. He came to the conclusion it was a dog's life, and gave it up. The principle of going to work so early that you are almost tired before you begin, and are certainly fatigued out before the day is over, is wrong. There is only a certain amount of work in a man, no matter how willing he is.

### Then It Happened

"I wonder if it would" snowed the running.

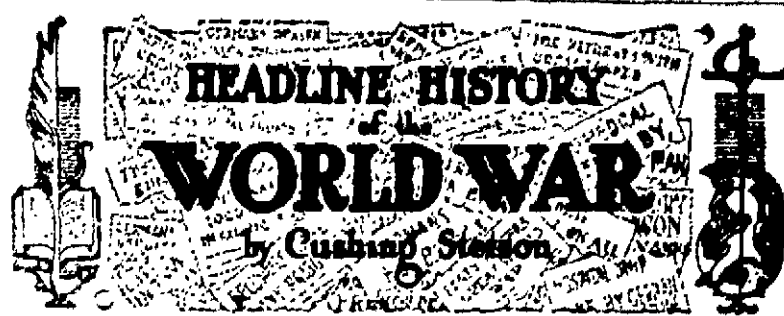

"You wonder if what would" demanded the barkeep.

"Why, if a man works all night and sleeps when others are working, I wonder if it would be right to call him a day dreamer?" replied the running, as he headed for the door.—Milwaukee Sentinel.

### TROOP MIXES WITH A MULE

With their trek-cart pulled by an army mule that had seen service on the Mexican border, Troop No. 4, Boy Scouts of America, of Middletown, Conn., hiked the 115 miles from that city to New York in four days. Under the supervision of Scoutmaster S. H. Rees, nine of the troop of 32 scouts left Middletown on a Monday and arrived in New York city on a Thursday evening, having camped out along the way, cooking their own meals and testing in the fields under canvas.

AMERICAN LEGION  
DAY NOV. 11TH

The American Legion, the national organization of American veterans of the great war, in which Kingston Post is to have a charter, the signed application having been mailed to L. C. Tuckerman, the organizer, today, already is making plans to celebrate November 11, 1919, the first anniversary of the signing of the armistice. State organizations and local posts of the legion throughout the country will observe the anniversary as "American Legion Day." At the same time the national convention will be held in Minneapolis on November 10, 11 and 12. The legion is proceeding energetically in its campaign for 4,000,000 members and to fortify itself as the great American bulwark against Bolshevism on this side of the world.

**Modern Water Supply.**  
The different summer resorts in the Catskills have greatly improved their water supply in the last few years. Brooksburn Park at Brooksburn has just been equipped with a very fine system consisting of a Kingstonian power pump and a New Way air cooled gasoline engine. The Canfield Supply Co. furnished the equipment.

**Milton and Italy.**  
How delightful was Italy to Milton! His Allegro and Penseroso show that he could fully appreciate both its mirth and its majesty. He returns not the less to live out his career of illustrious service in his own country, where his brave heart and philosophic mind were of more avail to his time than even his sacred song to ours. —Julia Ward Howe.

FEW KINGSTON  
NAVY RECRUITS

Kingston is furnishing almost no recruits for the U. S. navy, which seems odd to the recruiting officer, E. Hansche, at the central post office. Other Hudson valley towns are turning in the usual number of applications but here—perhaps because all the young men have work—no one seems disposed to take advantage of the chance offered to learn a good trade while receiving fair wages, the benefit of discipline and an outdoor life which fits a young fellow in a few years to go back to civilian life prepared to make his way.

Men wishing to join the U. S. navy can do so for a term of enlistment of two, three or four years, except applicants for machinists' mate school or aviation mechanic school which term will be not less than three years. Minors under 18 years may be enlisted for two, three or period of minority at their option with consent papers of their parents or guardians. Present war pay is to permanent. Further information may be had from the U. S. navy recruiting station, post office building.

**China's Water Transportation.**  
On the rivers, streams or canals of China transportation and postal facilities depend on the sampans. Women, as well as men, operate them all day and the prehenile foot renders their task much easier. Every Chinese postman, lying on his back, steers with his hands and rows with his toes. He holds the oar strongly between the great toe and the others and gives a vigorous motion to the boat by the powerful action of the leg muscles.

FORMER KAISER  
NOT DEPRESSED

(By Ambrose Lambert.)  
By Telegram to The Freeman.  
Amorongen, Holland, July 14.—William Hohenzollern, ex-Kaiser, is not the broken man he has been pictured nor is he apparently worrying over the prospect of facing trial for war crimes, according to his appearance.

The correspondent had an extremely close view of him and the former empress and a secretary while walking the grounds of the castle of Count Bentinck. The one-time emperor was laughing gaily, talking animatedly and swinging his cane. Just as he did in pre-war days, as I crossed the bridge over the castle moat. William was dressed in brown tweeds and his figure was strikingly erect though rather stout. There was no sign that he had been bowed down by the weight of his woes.

**KICKED BY HORSE.**  
Edward Rightmeyer of Catskill Here in Critical Condition.  
Edward Rightmeyer of Catskill sustained a fractured skull and a fractured jaw when kicked by a horse Sunday. He was removed to the Kingston City Hospital that evening and his condition is critical. Dr. Frank A. Johnston is attending him.

**Taking Up Our Time.**  
Sometime we are going to figure up how many hours a day of our telephone time is devoted to listening patiently to sweet voices saying that they know they ought not to disturb us at our work.—Ohio State Journal.

500 FARMERETTES  
PICKING BERRIES

In Ulster County—20 Camps Scattered Through County with Headquarters at Marlborough—Mrs. Monica Walsh Directing Work.  
There are now 500 girls engaged in picking fruit in Ulster county. Twenty-nine camps are scattered through the county with the central headquarters in Marlborough, from which point Miss Monica Walsh, field secretary, directs the work.

Mrs. Otto R. Eichel, state federal director of the New York state Woman's Land Army, has wired the Albany County headquarters, Room 311, Capitol, that there was an urgent need for more helpers in Ulster county. Since the opening of the camps there has been a need for girls the supply not at any time meeting the demand.

The girls do piecework, being paid at the rate of so much a quart for the berries they pick. Many of the girls make as much as from two to two dollars and a half a day, paying 95 cents to the camp supervisor for their maintenance.

An Albany girl at one of the Ulster county camps in a letter sent to her sister stated she is enjoying the work and is increasing the amount she makes daily. She added a postscript, saying, "The cats are great, and after eight hours' work I am ready for my share."

The girls rise at 3:30 o'clock in the morning, breakfast at 6:30 o'clock and are in the berry patch before the sun is well up, thus making it possible for them to work in the cool of the day. Each girl works eight hours, and at this rate finishes

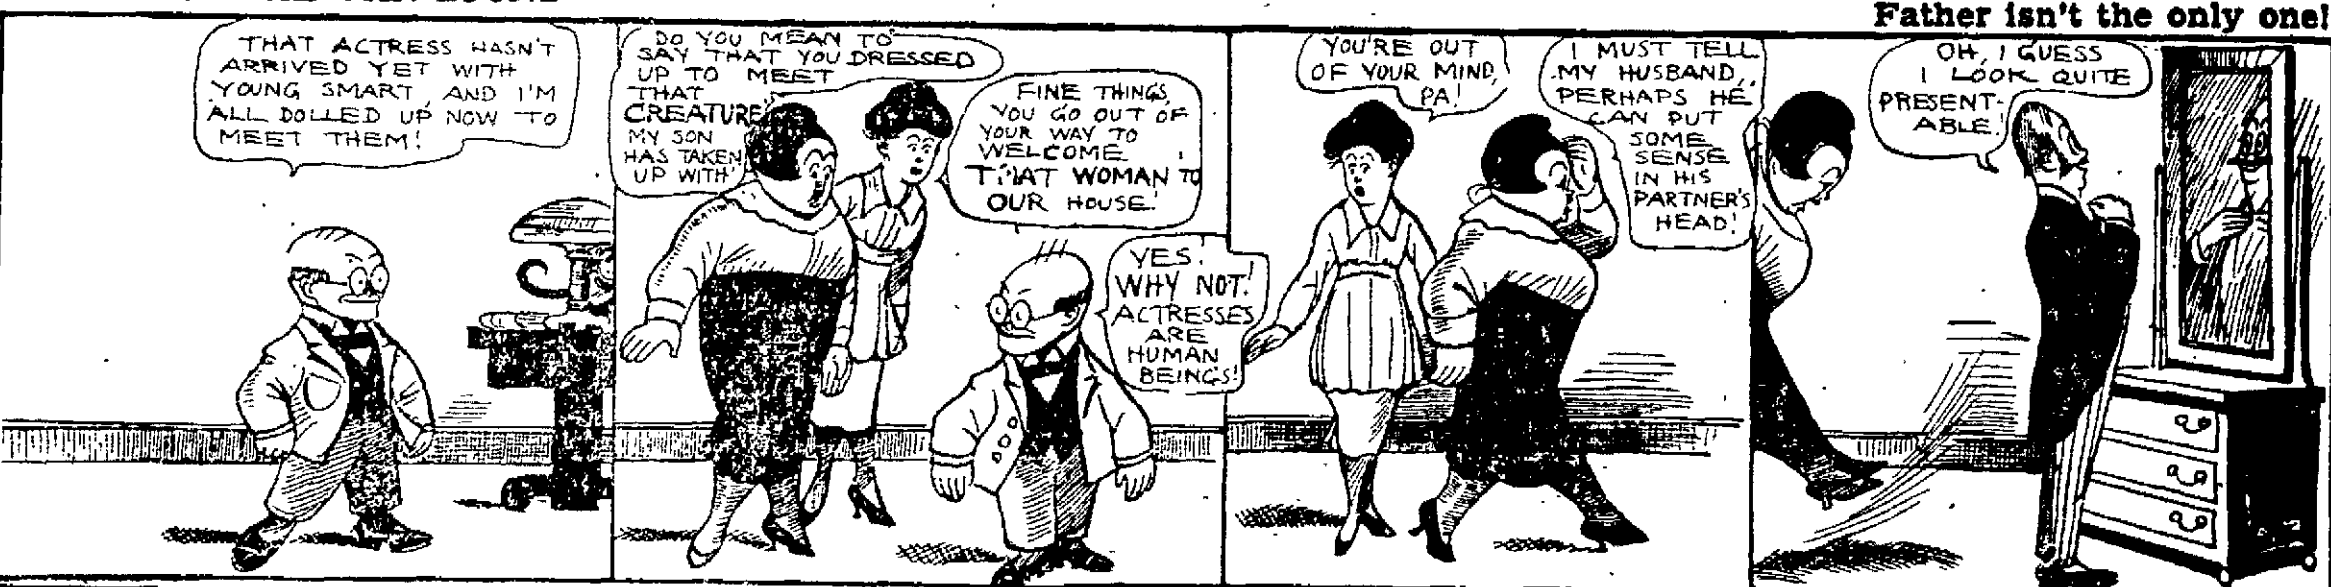

up her work at 3:30 or 4 o'clock in the afternoon.  
The Land Army girls from the Ulster county gathered in Marlborough to meet Mrs. Eichel, who came up from New York to inspect the camps. They gave a large reception, at which Secretary of Francis J. Huko was present and addressed the girls.

Secretary Hugo happened to be hunting season and relative value of different breeds of dogs when he remarked that he heard that Val Schirick, the Broadway barber, had secured a fine new hound at a bargain. Pressed by the other as to the ways and hows the first paragraph explained that a man owned a hound which became thin, discolored and without spirit, and for the reason Val bought the animal cheap. Val when he acquired the hound made a careful examination of the dog and found that the animal appeared to be in the dumps, and furthermore that there was now a half a dozen and loosed them in the dog's hair, and now the hound is worth several times what Val paid for him.

**Back to Randall's Island.**  
Augustus Elmendorf, 16 years old, out on parole from Randall's Island, was caught early Saturday morning stealing a milk bottle. He was arrested by Officer Reardon. That afternoon Augustus was turned over to a parole officer from the institution and taken back there.

**Thing That Really Counts.**  
The great thing in this world is not so much where we are, but in what direction we are moving.—Oliver Wendell Holmes.

If we were operating under the Old Fogy Business methods, we would scout the idea of offering our entire stock at a discount, off the regular prices! Modern methods demand that a

Shoe Stock be closed out during the season for which it was intended, and that there be no carry-overs to mar the appearance of the new Footwear of another season. We believe in this method and—THIS IS OUR WAY! In order that there

may be no strings tied to anything, we shall offer our stock of Shoes, Oxfords, Pumps and Colonial for Men, Women, Boys, Misses and Children at big reductions off their former prices. You have read about our Good

Shoes—you have seen them, perhaps you have worn them! Get here as soon as you can as after this week you will be paying the new prices and in most cases not getting as good values as we are able to offer you today.

## R-34 RODE OUT STORMS EASILY

Dirigible in Good Condition After Long Flight—Does Back to Home Langar in Few Days

By Telegraph to The Freeman.  
Pulham, England, July 14.—A force of 200 workmen were today engaged in overhauling the British dirigible R-34, in preparation for her flight to her base at East Fortune, Scotland, the starting point of her trans Atlantic voyage. She is expected to take the air within two or three days and make the trip to East Fortune in about seven hours.

The R-34 landed here yesterday after her history making flight across the Atlantic and back in excellent condition. One of her engines must be replaced, but this will be done after she arrives at East Fortune. Aside from rips in her envelope, she suffered practically no other damage.

Crowds of sightseers came to Pulham from London and many other towns to view the first Trans-Atlantic airship today.

Major Scott, commander of the R-34 and other officers of her crew, emphasized today the ease with which they made the return journey from New York and the comfort they enjoyed.

Particularly, they pointed out, that while ships beneath them were being tossed by a forty mile gale that must have caused seasickness among their passengers, the R-34 rode the wind with scarcely any rocking.

## COMMUNITY SING KINGSTON POINT

## What is an Advertisement?

The word advertisement is derived from advert, which means "to turn the mind toward."

The purpose of advertising is usually to sell something—either service or merchandise. Advertising, therefore, is the art of selling through publicity.

The United States is the leading advertising nation of the world. The story of the success of its merchants and manufacturers through advertising reads "more like the tales of the Arabian Nights than the sober facts of the Twentieth Century."

Advertising helps to make a business successful. But advertising cannot—will not, do it alone. The product must be right and the price must be right. These are first essentials.

Advertisement—noun—derived from the word advert—meaning "to turn the mind toward."

To turn the mind toward what?

Trustworthy goods at trustworthy prices.

## KOHAN WAS WELL KNOWN RUSSIAN

Port Town Resident, Buried Sunday. Was Supervising Engineer on Great Government Works. There Before Becoming an American. (Contributed)

The funeral of the late Eliazar Kohan was held from the undertaking rooms of E. A. Kelly at 10 o'clock on Sunday morning, the services being in charge of Rabbi Miller of this city, who in well chosen words paid a tribute and allowing tribute to the deceased.

Through the death of Mr. Kohan, the village of Port Town, has lost one of its most highly educated and renowned citizens. With his wife he settled in that village in 1908, and since that time resided there in home he purchased and carried on his research of scientific and scientific lines.

Mr. Kohan was a pleasing conversationalist and could talk intelligently on any subject of the day. As he had been in this country long enough he was anxious to become a naturalized citizen and secured his naturalization papers as he took much interest in national and civic affairs.

Eliazar Kohan was born in Russia, province of Leningrad, city of St. Petersburg, in 1875, and after his graduation from the Institute of Technology in St. Petersburg, he came to America in 1900, where he was employed by the American government.

Mr. Kohan was a member of the Russian community in Port Town, and was well known to all who knew him. He was a man of great energy and was always ready to take on any task that was set before him.

## 2.75 BEER IS FAR FROM WEAK

If Stories Told in Police Court Are True—Patrick Finnegan Is In Again—Speeders Caught in Police Net.

Patrick Finnegan was arrested Sunday by Officer Ryan on complaint of Finnegan's wife who charged her husband with disorderly conduct. This is the first time that Finnegan has been arrested. This morning in police court he entered a plea of guilty to being drunk.

Mr. Finnegan informed the court that he resided at No. 724 Broadway, and that his husband made life far from pleasant for her. They have had seven children and five reside at home. Sunday morning her husband came home so drunk that she found it necessary to have him arrested.

Finnegan informed the court that all he had been drinking was the 2.75 beer, but if he told the truth, week beer is far from weak. He is sentenced to 10 days in the pen at Albion and sentence was suspended pending good behavior. Finnegan agreed to contribute to the support of his family, but he is to stay away from the house and seek lodgings elsewhere.

Another drunk who said he had imbibed 2.75 beer was Thomas D. McLaughlin, who in turn in his own country was picked up Saturday evening by Officer Healer and was fined \$3 this morning on his plea of guilty.

Speeders Caught and Fined.  
J. H. Whiting, of Brooklyn, was caught speeding 25 miles an hour on Sunday by Officer Seger, who had just returned from his vacation, and when arraigned before Judge Schlick in police court that day paid a fine of \$1.

Rudolph Newburgh of New York city, also caught speeding by Officer Walker Saturday, contributed \$5 to the city fund.

Charles Schaig, of Tannersville, speeding, had his case adjourned to Thursday. He was caught by Officer Walker.

Benjamin Gottfried of New York city, caught by Officer Seger, was fined \$3 for speeding 25 miles an hour.

Mrs. Leah E. Lach of No. 45 North Front street was picked up by Officer Walker for driving at the rate of 26 miles an hour. She paid \$5 also.
